THE NEW ENGLAND FUEL INSTITUTE (NEFI) CAN HELP:

- The NEFI Legislative & Regulatory Action Center is offering an online seminar (or “webinar”) to help you remain compliant with the newly revised SPCC regulations.
- The webinar is scheduled for **July 24, 2008 at 10:00AM**. *Estimated duration of this webinar: 1.5 hours*
- **Do not wait!!!** The closer you get to the deadline (July 1, 2009), the harder it will be to find a qualified engineer to revise and certify your plan, obtain the necessary zoning permits, begin implementing the changes and hiring contractors to do the necessary work
- SPCC revisions are complicated, varied and apply to **BULK PLANTS WITH 1,320 GALLONS OR MORE!!!**
- The webinar will be presented by NEFI’s Federal Regulatory Attorney Mark S. Morgan, Esq. and Tim Laughlin, registered engineer in NC and VA
- The webinar will be presented via telephone conference and web-based PowerPoint presentation. For registration information, see the attached form, and **reply by July 21, 2008 at 5pm**

NEFI, in its regular course of business, conducts meetings and other cooperative activities for and between competitors. NEFI emphasizes its commitment to comply strictly and in all respects with the antitrust laws of the United States and its State. As a practical matter, such compliance is almost always a safeguard against violation of state or federal antitrust statutes. Providing compliance assistance with government rules and regulations does not constitute NEFI's support for such rules and regulations.
